

Index of Technical and Symposium Papers

Vol. 102, Part 2

TITLES

A

- Generalized Multiple-Spaces Equation to Accommodate Any Mix of Close-Off and Fan-Powered VAV Boxes, A, YU-PEI KE, STANLEY A. MUMMA 183
- Generic Approach to Identifying Faults in HVAC Plants, A, ARTHUR L. DEXTER, MOURAD BENOURETS 550
- Model for the Prediction of the Performance of a Spined-Tube Absorber—Part 2: Model and Results, A, A. TERRENCE CONLISK 122
- Model to Predict the Latent Capacity of Air Conditioners and Heat Pumps at Part-Load Conditions with Constant Fan Operation, A, HUGH I. HENDERSON, JR., KANNAN RENGARAJAN. 266
- New Absorption Chiller to Establish Combined Cold, Heat, and Power Generation Utilizing Low-Temperature Heat, A, CHRISTIAN J. SCHWEIGLER, PETER RIESCH, SEBASTIAN DEMMEL, GEORG ALEFELD 1118
- Proposed Combination Radiant/Convective System for an Arizona Residence, A, DAVID G. SCHEATZLE 676
- Time-Domain Estimation of Wall Conduction Transfer Function Coefficients, A, MORRIS G. DAVIES 328
- Absorption of Vapor into Liquid Film on Horizontal Tubes, JANKO REMEC, HENRIK GJERKEŠ, BRANKO GAŠPERŠIĆ 973
- ADPI of Cold Air Jets in an Enclosure, The, ALLAN T. KIRKPATRICK, KEVIN D. KNAPPMILLER ... 3
- Advanced Sorption Chillers for Gas Cooling, PETER SATZGER, FELIX ZIEGLER, DRISS STITOU, BERNARD SPINNER, GEORG ALEFELD 1095
- Airflow Regulation in Variable-Speed Systems for Residential HVAC Applications, ROGER C. BECERRA, BRIAN L. BEIFUS 10
- Alternative Cooling Tower Water Treatment Methods, CHARLES A. WILSEY 600
- Ambient Temperature and Solar Radiation Prediction for Predictive Control of Hvac Systems and a Methodology for Optimal Building Heating Dynamic Operation, TING-YAO CHEN, ANDREAS K. ATHIENITIS 26
- Experimental Comparison of Two-Speed and Single-Speed Geothermal Heat Pumps, An,

- MICHAEL A. SAUNDERS, KAREN R. DEN BRAVEN 448
- Analytical Study of a Gas-Fired Adsorptive Air-Conditioning System, FLORENCE POYELLE, JEAN J. GUILLEMINOT, FRANCIS MEUNIER 1128
- Applicability of the EHD Technique for Convective Boiling of Refrigerant Blends—Experiments with R-404A, The, MOHSEN SALEHI, MICHAEL M. OHADI, SERGUEI DESSIATOUN. 839
- Application of an Unsteady-State Model for Predicting Vertical Temperature Distribution to an Existing Atrium, YUICHI TAKEMASA, SATOSHI TOGARI, YOSHINOBU ARAI 239
- Application of Black-Box Models to HVAC Systems for Fault Detection, HENK C. PEITSMAN, VINCENT E. BAKKER 628
- Application of Evaporative Cooling to Large HVAC Systems, WILL K. BROWN 895
- Application of General Regression Neural Network (GRNN) in HVAC Process Identification and Control, OSMAN AHMED, JOHN W. MITCHELL, SANFORD A. KLEIN 1147
- Application of Two-Layer Methods for the Evaluation of Wind Effects on a Cubic Building, YONGSHENG ZHOU, THEODORE STATHOPOULOS ... 754
- Assessment of the Performance of Ventilated Floor Thermal Storage Systems, MICHAEL J. HOLMES, ALEXANDRA WILSON 698

C

- Calorimetric Measurements of Inward-Flowing Fraction for Complex Glazing and Shading Systems, JOSEPH H. KLEMS, GUY O. KELLEY 947
- Chiller Condition Monitoring Using Topological Case-Based Modeling, HIROAKI TSUTSUI, KAZUYUKI KAMIMURA 641
- Climatic Conditions for Saudi Arabia, SYED-AHMED M. SAID, HAMID M. KADRY, BASIL I. ISMAIL 37
- Cogeneration and District Heating—The Solution for Energy Economy and a Cleaner Environment in Finland and Helsinki, VEIKKO P.S. HOKKANEN 784
- Commissioning a Museum and Archival Storage Facility, REBECCA T. ELLIS 476
- Comparative Analysis for Natural Gas Cooling and Space Conditioning Technologies in New York State, DAPHNE C. D'ZURKO, GARY J. EPSTEIN 275
- Comparison Between Calculated and Measured SHGC for Complex Fenestration Systems, A,

JOSEPH H. KLEMS, JEFFREY L. WARNER,
GUY O. KELLEY 931

Comparison of Laboratory and Field Observations:
Ozone Water Treatment for Cooling Systems,
KENNETH P. MORTENSEN 591

Condition Monitoring in HVAC Subsystems Using
First Principles Models, PHILIP HAVES, TIM-
OTHY I. SALSBURY, JONATHAN A. WRIGHT 519

Correlation to Quantify Convective Heat Transfer
Between Vertical Window Glazings, A, JOHN
L. WRIGHT 940

Cost-Effective HVAC Technologies to Meet
ASHRAE Standard 62-1989 in Hot and Humid
Climates, KANNAN RENGARAJAN, DON B.
SHIREY III, RICHARD A. RAUSTAD 166

Cost-Effectiveness of Indirect Evaporative Cooling
for Commercial Buildings in Texas, BRUCE D.
HUNN, JOHN L. PETERSON 434

Costs and Benefits from Utility-Funded Commis-
sioning of Energy-Efficiency Measures in 16
Buildings, MARY ANN PIETTE, BRUCE NOR-
DMAN 482

Cycling and Quasi-Steady Behavior of a Refrigerator,
PAUL E. KRAUSE, CLARK W. BULLARD 1061

D

Development and Testing of a Prototype Tool for
HVAC Control System Commissioning, PHIL-
IP HAVES, DORTE R. JØRGENSEN, TIMO-
THY I. SALSBURY, ARTHUR L. DEXTER ... 467

Development of Design Model for a Rectifier in
GAX Absorption Heat Pump Systems, YONG
TAE KANG, WEIBO CHEN, RICHARD N.
CHRISTENSEN 963

Development of a Fault Diagnosis Method for Heat-
ing Systems Using Neural Networks, XIAOM-
ING LI, HOSSEIN VAEZI-NEJAD, JEAN-
CHRISTOPHE VISIER 607

Development of Two-Stage Compression and Cas-
cade Heating Heat Pump System for Hot
Water Supply, HIROMI HASEGAWA,
MICHIOYUKI SAIKAWA, KATSUMI HASHIMO-
TO, TETSUSHIRO IWATSUBO 248

Disaggregating Residential Hot Water Use, ANDREW
LOWENSTEIN, CARL C. HILLER 1019

District Heat Under Scrutiny: Survival Strategies
for Alaskan Cogeneration, JAMES S.
STRANDBERG 809

Dual-Tank Water-Heating System Options, CARL
C. HILLER 1028

E

Effect of a Heat Pipe on Dehumidification of a Con-
trolled Air Space, JOHN K. MCFARLAND, SHEL-
DON M. JETER, SAID I. ABDEL-KHALIK 132

Effect of Air-Coil Design on the Performance of
Heat Pumps and Air Conditioners, The, ROB-
ERT H. GREEN, LINDA ROBERTS 257

Effect of Lubricant on Spray Evaporation Heat
Transfer Performance of R-134a and R-22 in
Tube Bundles (RP-668), SHANE A.
MOEYKENS, MICHAEL B. PATE 410

Effect of Ozone on Corrosion of Carbon Steel and
Copper in the Presence of HEDP and TTA in
Cooling Water (RP-748), FUXING GAN, DER-
TAU CHIN, AMANDA K. MEITZ 456

Effect of Seasonal Changes in Use Patterns and
Cold Inlet Water Temperature on Water-Heat-
ing Loads, DONALD W. ABRAMS, ALAN C.
SHEDD 1038

Effects of Rotation on Ice Formation, OSAMA M.
IBRAHIM, DAVID E. NAGLE 344

Effects of Surrounding Spaces on Rooms Pressur-
ized by Differential Flow Control, JAMES J.
COOGAN 18

Electric Co-heating in the ASHRAE Standard Meth-
od of Test for Thermal Distribution Efficiency:
Test Results on Two New York State Homes,
JOHN W. ANDREWS, RICHARD F. KRAJEW-
SKI, JOHN J. STRASSER 870

Energy Audit Process Simplifications from the Tex-
as LoanSTAR Program, WARREN M. HEFF-
INGTON, NAMIR F. SAMAN, ANGELA J.
BRITTON, AGAMI T. REDDY 68

Energy Conservation Is an Ethic, WILLIAM J.
COAD 505

Energy Transfer Simulation for Radiantly Heated
and Cooled Enclosures, KIRBY S. CHAPMAN,
PING ZHANG 76

Energy Use of Ice-making in Domestic Refrigerators,
ALAN K. MEIER, MARK S. MARTINEZ 1071

Evaluating Commissioning as an Energy-Saving
Measure, CHRISTIE R. KJELLMAN, RUTH G.
HAASL, CATHERINE A. CHAPPELL 492

Evaluation of the Laboratory Equipment Compo-
nent of Cooling Loads, EMIL SANDRU 732

Experimental Evaluation of Attic Radiant Barriers,
HUSAM R. AL-ASMAR BYRON W. JONES,
DENNIS K. MATTESON 297

Experimental Results from a Network-Assisted PID
Controller, PETER S. CURTISS 1157

Experimental Study of a Liquid Overfeeding Window
Air Conditioner, VINCE C. MEI, FANG C. CHEN,
TONY D. CHEN, LARRY W. JENNINGS 63

F

Fault Detection in an Air-Handling Unit Using
Residual and Recursive Parameter Identifica-

tion Methods, WON-YONG LEE, CHEOL PARK, GEORGE E. KELLY	528
Fault Diagnosis of an Air-Handling Unit Using Artificial Neural Networks, WON-YONG LEE, JOHN M. HOUSE, CHEOL PARK, GEORGE E. KELLY	540

G

Gas Cogeneration Systems Are Making Headway in Nontraditional Cogeneration Areas, JOHN J. WIMBERLY IV, STEPHEN W. LONG, JAMES B. DYER	775
Gas Turbines for the Cogeneration of Electric Power and District Heating, LARS E. ÅSTRAND ..	794
Groundwater Heat Pump Systems: Experience at Two High Schools, KEVIN RAFFERTY	922

H

Hot-Gas Bypass Defrosting of Evaporators Utilizing a Vaporizer, KALMAN I. KRAKOW, SUI LIN ..	385
Hydroxide Absorption Heat Pumps with Spray Absorber, FRANZ SUMMERER, FELIX ZIEGLER, PETER RIESCH, GEORG ALEFELD	1010
Hydroxide Mixture as Working Fluid for Absorption Heat Pumps, A. ANDREAS S. BEUTLER, GÜNTHER R. FEUERHECKER, GEORG ALEFELD	9988

I

Impact of Residential Duct Insulation on HVAC Energy Use and Life-Cycle Costs to Consumers, BURKE TREIDLER, MARK P. MODERA, ROBERT G. LUCAS, JAMES D. MILLER	881
Impact of the Suction Line Accumulator on the Frost/Defrost Performance of an Air-Source Heat Pump with a Scroll Compressor, DARIN W. NUTTER, DENNIS O'NEAL, W. VANCE PAYNE	284
Impacts of ASHRAE Standard 62-1989 on Small Florida Offices, DON B. SHIREY III, KANNAN RENGARAJAN	153
Improved Property Data Correlations of Absorption Fluids for Computer Simulation of Heat Pump Cycles, HANS-MARTIN HELLMANN, GERSHON GROSSMAN	980
Independent Compartment Temperature Control of Lorenz-Meutzner and Modified Lorenz-Meutzner Cycle Refrigerators, KEVIN E. SIMMONS, IMAM HAIDER, REINHARD RADERMACHER	1085
Indoor Humidity and Human Health: Part II—Buildings and Their Systems, EDWARD A. ARENS, ANNE V. BAUGHMAN	212
Indoor Humidity and Human Health—Part I: Literature Review of Health Effects of Humidity-Influ-	

enced Indoor Pollutants, ANNE V. BAUGHMAN, EDWARD A. ARENS	193
Influence of Heat Load on Selection of Laboratory Design Parameters and Dynamic Performance of Laboratory Environment, OSMAN AHMED, JOHN W. MITCHELL, SANFORD A. KLEIN ..	723

L

Laboratory Design Loads—What We Know, Don't Know, and Need to Know, WILL K. BROWN ..	711
Laboratory Evaluation of Ozone as a Corrosion Inhibitor for Carbon Steel, Copper, and Galvanized Steel in Cooling Water (RP-747), FUXING GAN, DER-TAU CHIN, AMANDA K. MEITZ	395
Leakage and Blockage Detection in Water Network of District Heating System, YI JIANG, HONG CHEN, JISHENG LI	291
Lines of Constant Skin Temperature with Varying Skin Wettedness, TOHRU MOCHIDA	222

M

Mixed-Mode HVAC—An Alternative Philosophy, DAVID ARNOLD	687
Model of an Ice-on-Pipe Brine Thermal Storage Component, BRIAN VICK, DOUGLAS J. NELSON, XIANHUI YU	45

N

Neural Networks Applied to Buildings—A Tutorial and Case Studies in Prediction and Adaptive Control, PETER S. CURTISS, GIDEON SHAVIT, JAN F. KREIDER	1141
New Empirical Equations for the Calculation of Centerline Air Velocity in Front of Exhaust Openings, LAURA BELLIA, VITTORIO BETTA, FURIO CASCETTA	230
Numerical Prediction of Flow Around a Building with Various Turbulence Models: Comparison of k-ε EVM, ASM, DSM, and LES with Wind Tunnel Tests, SHUZO MURAKAMI, AKASHI MOCHIDA, RYOZO OOKA, SHINSUKE KATO, SATORU IIZUKA	741
Numerical Simulation of Flow and Pressure Around a Building, R. PANNEER SELVAM	765

O

Operating and Maintenance Experience with Commercial/Institutional Ground-Source Heat Pump Systems, ROBERT MANCINI, HAROLD W. HEISS, J.B. SINGH	917
Operating Experiences with Commercial Ground-Source Heat Pumps—Part 1, R.L. DOUGLAS	

CANE, S. BLAIR CLEMES, ANDREW
MORRISON 911

Optimizing System Control with Load Prediction by
Neural Networks for an Ice-Storage System,
MINORU KAWASHIMA, CHARLES E. DOR-
GAN, JOHN W. MITCHELL 1169

P

Parametric Analysis of Heat and Mass Transfer
Performance of a Packed-type Liquid Desic-
cant Absorber at Part Load Operating Condi-
tions, ARSHAD Y. KHAN 349

Performance Monitoring, Fault Detection, and
Diagnosis of Reciprocating Chillers, MELI
STYLIANOU, DARIUS NIKANPOUR 615

Physical Properties of Fluorinated Propane and
Butane Derivatives and the Vapor Pressure of
R-245ca/338mccq Mixtures as R-11 Alterna-
tives, ADOLPH L. BEYERLEIN, DARRYL D.
DESMARTEAU, KIRIT N. NAIK, YUAN XIE .. 358

Practical Applications of Radiant Heating and Cool-
ing to Maintain Comfort Conditions, PETER
SIMMONDS 659

Predicting Lubricant Performance in Refrigerant
Compressors: A Comparison Between Com-
ponent Testing and Benchtesters, HYUNG K.
YOON, CARL H. POPPE, CRISTINO
CUSANO 86

Prediction Of Liquid Superheat Around Spherical
Bubbles, IGNACIO R. MARTÍN-DOMÍNGUEZ,
THOMAS W. McDONALD 380

Prediction of the Performance of a Spined-Tube
Absorber—Part 1: Governing Equations
and Dimensional Analysis, A. TERRENCE
CONLISK 110

R

Radiant Panel Perimeter Heating Options: Effec-
tiveness and Thermal Comfort, MARYL D.
FREESTONE, WILLIAM M. WOREK 667

Recommended U-Factors for Swinging, Overhead,
and Revolving Doors, STEPHEN C. CARPEN-
TER, JOHN HOGAN 955

Refrigerant Management Challenges at a Nuclear
Facility, KEVIN R. SCAGGS, DENA D. BRETT ... 375

Resorption Cycle Using Ammonia and Water, The,
MOHIT PANDE, KEITH E. HEROLD 1110

Room Air Conditioning by Means of Overnight
Cooling of the Concrete Ceiling, ROBERT A.
MEIERHANS 686

S

Simplified Method for Foundation Heat Loss Calcu-
lation, MONCEF KRARTI, SANGHO CHOI ... 140

Simulation of a 20-Ton LiBr/H₂O Absorption Cool-
ing System, BAGAS WARDONO, RON M.
NELSON 96

Simulation of a Solar-Assisted LiBr/H₂O Cooling Sys-
tem, BAGAS WARDONO, RON M. NELSON. ... 104

Simulation of Hybrid Heat Pumps with Two- and
Three-Stage Solution Circuits for High-Lift
Applications, SUNIL S. MEHENDALE, REIN-
HARD RADERMACHER 1101

Simultaneous Heat and Moisture Transfer in Fiber-
glass Insulation with Transient Boundary Con-
ditions, CAREY J. SIMONSON, YONG X.
TAO, ROBERT W. BESANT 315

Single-Tube Performance of Condensation of R-
134a on Horizontal Enhanced Tubes, YU-JUEI
CHANG, C.T. HSU, CHI-CHUAN WANG 821

Standardized Testing of Cooling Panels and Their
Use in System Planning, CHRISTOPH
KOCHENDORFER 651

State and Local Heat Supply Planning: Insurance
for a Warm Future, MORRIS A. PIERCE 801

Surface Wettability Effect on an Indirect Evapora-
tive Cooling System, TIEBIN A. WANG, ROB-
ERT L. REID 427

T

Teaching Ethics and Practicing What We Preach,
PETER ROJESKI, JR. 510

Testing of a Hydrocarbon Mixture in Domestic
Refrigerators, DONGSOO JUNG, CHONG B.
KIM, BYOUNG H. LIM, HONG W. LEE 1077

Thermal Energy Storage Chiller Management, C.
DAVE WILLIAMS 578

Thermal Performance of Residential Duct Systems
in Basements, BURKE TREIDLER, MARK P.
MODERA 847

Twenty-Five Ways to Raise Your Chilled-Water Tem-
perature Differential, DONALD P. FIORINO 567

Two-Phase Flow Heat Transfer and Friction Character-
istics of R-22 and R-407C, CHI-CHUAN WANG,
C.S. KUO, YU-JUEI CHANG, D.C. LU 830

Typical Faults of Air-Conditioning Systems and
Fault Detection by ARX Model and Extended
Kalman Filter, HARUNORI YOSHIDA, TAT-
SUHIRO IWAMI, HIDEKI YUZAWA, MASAMI
SUZUKI 557

U

Use of Passive Radiation Barriers in Ventilated
Attics, SAMIR MOUJAES 307

Using Blending Pumps to Increase Individual Fac-
ility Supply Water Temperatures and Total Sys-

tem Differential Temperatures (ΔT_s), A.L. UTSCH.....	583
---	-----

V

Validation of the Algorithm for Ice-on-Pipe Brine Thermal Storage Systems, DOUGLAS J. NELSON, BRIAN VICK, XIANHUI YU.....	55
Valve Requirements for "Backpressure," "Flow," and "Cycle Change" Control in Thermal Storage Systems, R. EDWIN FEENY.....	573
Vapor-Liquid Equilibria for R-22, R-134a, R-125, and R-32/125 with a Polyol Ester Lubricant: Measurements and Departure from Ideality, WILLIAM L. MARTZ, CHRISTOPHER M. BURTON, ANTHONY M. JACOBI.....	367

W

Water Heater First-Hour Rating vs. In-Field Performance, CARL C. HILLER.....	1054
What Is a Professional Society?, JEROLD W. JONES.....	512

AUTHORS

Index of Technical and Symposium Papers

Vol. 102, Part 2

TITLES

A

- Airflow Characteristics of Jet Expansion for Nonisothermal Flow Conditions, M.H. HOSNI, MOHAMED B. ABU-EL-HASSAN, PAUL L. MILLER . . . 301
- Airflow Distributions at Floor Level in a Slot-Outlet and Slot-Inlet Ventilated Room, JIEMING WANG, JOHN R. OGILVIE . . . 347
- Automatic Balancing Valves in Distribution Networks Today, FARHAD GOLESTAN . . . 439

C

- Calculating Chiller Emissions and Source Energy Use, DONALD J. AUMANN . . . 649
- Condensation Resistance Validation Project—Detailed Computer Simulations Using Finite-Element Methods, YIE ZHAO, DRAGAN CURCIJA, WILLIAM P. GOSS . . . 508
- Control Options for Various Humidification Technologies, ROBERT B. CLEMENS . . . 607
- Controlling Rotary Desiccant Wheels for Dehumidification and Cooling, KENNETH W. CROOKS, NANCY J. BANKS . . . 633
- Controlling the Flow of Combustion Air and Fresh Air in Housing, MARK Y. ACKERMAN, CLIFFORD L. HOYME . . . 102
- Cost Efficiency Analysis in Support of the Energy Conservation Standards for Refrigerator/Freezers, SAJID H. HAKIM, ISAAC TURIEL . . . 247

D

- Derivation and Application of the SES Critical Velocity Equations, WILLIAM D. KENNEDY, JOSEPH A. GONZALEZ, J. GREG SANCHEZ . . . 40
- Design Issues of Variable Chilled-Water Flow Through Chillers, THOMAS B. HARTMAN . . . 679
- Design of Ammonia-Water Condenser with a Fluted Tube, YONG TAE KANG, WEIBO CHEN, RICHARD N. CHRISTENSEN . . . 587
- Development of Ventilation Rates and Design Information for Laboratory Animal Facilities: Part 2—Laboratory Tests, GERALD L. RISKOWSKI, RONALDO G. MAGHIRANG, WEI WANG . . . 195

E

- Effect of R-123 Condensate Inundation and Vapor Shear on Enhanced Tube Geometries, The (RP-676), LANCE E. REWERTS, JOSEPH B. HUBER, MICHAEL B. PATE . . . 273
- Effect of R-134a Inundation on Enhanced Tube Geometries, The (RP-676), LANCE E. REWERTS, JOSEPH B. HUBER, MICHAEL B. PATE . . . 285
- Effect of Variable Flow on Centrifugal Chiller Performance, GEORGE H. REDDEN . . . 684
- Electrical Energy and Cost Savings Potential at DOD Facilities, STEVEN J. KONOPACKI, HASHEM AKBARI, LARRY D. LISTER, LEE P. DEBAILLIE . . . 691
- Empirical Modeling of Stratified-Wavy Flow Condensation Heat Transfer in Smooth Horizontal Tubes, ABTAR SINGH, MICHAEL M. OHADI, SERGUEI V. DESSIATOUN . . . 596
- Energy and IAQ Impacts of CO₂-Based Demand-Controlled Ventilation (RP-740), STEPHEN C. CARPENTER . . . 80
- Energy End-Use Characterization at Fort Hood, Texas, HASHEM AKBARI, STEVEN J. KONOPACKI, LARRY D. LISTER, LEE P. DEBAILLIE . . . 724
- Energy Performance of Evacuated Glazings in Residential Buildings, ROBERT SULLIVAN, FREDRIC A. BECK, DARIUSH K. ARASTEH, STEPHEN E. SELKOWITZ . . . 220
- Energy Savings from Repair of Uncontrolled Airflow in 18 Small Commercial Buildings, CHARLES R. WITHERS, JR., JAMES B. CUMMINGS, NEIL A. MOYER, PHILIP W. FAIREY, BRUCE B. MCKENDRY . . . 549
- Energy Study in an Educational Institute, W.K. CHOW, W.F. HO, W.K. LEUNG . . . 228
- Energy Use and Conservation Opportunities in Army Family Housing: Results of the Fort Hood Study, LARRY D. LISTER, ALAN T. CHALIFOUX, RUSSELL G. DERICKSON . . . 707
- Environmental Considerations for Geothermal Energy as a Source for District Heating, KEVIN D. RAFFERTY . . . 457
- Environmental Improvements Resulting from the Use of Renewable Energy Sources and Nonpolluting Fuels and Technologies with District Heating and Cooling, EINO O. KAINLAURI . . . 468
- Evaluating the Potential of Vortex-Enhanced Evaporator Performance for Refrigeration Applications, MARK C. GENTRY, NICOLE C. DEJONG, ANTHONY M. JACOBI . . . 361

Evaluation of Building Environmental Impacts: Two Case Studies, STEPHEN CARPENTER, JOHN KOKKO	663
Evaluation of Turbulence Effect on Air Distribution Performance Index (ADPI), MOHAMED B. ABUEL-HASSAN, M.H. HOSNI, PAUL L. MILLER. . .	322
Experimental Results from Single-Pipe Diffusers for Stratified Thermal Energy Storage, MAURICE W. WILDIN.....	123
Experimental Results of a Household Automatic Ice-maker in a Refrigerator/Freezer, IMAM HAIDER, HE FENG, REINHARD RADERMACHER	541
Experimental Study of Vortex Diffusers, SAID SHAKERIN, PAUL L. MILLER	340

F

Factors Affecting the Energy Consumption of Two Refrigerator-Freezers, JAMES Y. KAO, GEORGE E. KELLY	525
Field Experiences in Residential Humidification Control with Temperature-Compensated Automatic Humidistats, ROGER M. PASCH, MICHAEL COMINS, JOSEPH S. HOBBS.	628

G

Great Energy Predictor Shootout II: A Bayesian Non-linear Regression with Multiple Hyperparameters, YOHIMASA CHONAN, KATSUYUKI NISHIDA, TAKASHI MATSUMOTO.....	405
Great Energy Predictor Shootout II: Measuring Retrofit Savings—Overview and Discussion of Results, The, JEFF S. HABERL, SABARATNAN THAMILSERAN	419
Great Energy Predictor Shootout II: Modeling Energy Use in Large Commercial Buildings, SRINIVAS KATIPAMULA	397
Green Neighborhood Process: Energy Conservation Through Collaboration, The, BRIAN M. DEAL, JEFFREY S. ADAMS, MARILYN H. ADAMS	699

H

High-Efficiency Refrigeration Fan Motors, GERRY N. BAKER	536
--	-----

I

Identification of Contaminants, Exposures, Effects, and Control Options for Construction/Renovation Activities (RP-804), THOMAS H. KUEHN, BARBARA GACEK, CHING-HSU YANG, DAVID T. GRIMSRUD, KEVIN A. JANNI, ANDREW J. STREIFEL, MCGREGOR R. PEARCE	89
Investigation of Dynamic Latent Heat Storage Effects of Building Construction and Furnishings (RP-455), DAVID W. BAILEY, FRANZ C. BAUER, CAROL F. SLAMA, CHRIS G. BARRINGER, JOHN R. FLACK	133

L

Laboratory Evaluations of Ozone as a Scale Inhibitor for Use in Open Recirculating Cooling Systems (RP-765), SEIFOLLAH NASRAZADANI, TAH JIN CHAO	65
Loss Coefficient Measurements for Flat Oval Elbows and Transitions (RP-690), BRAD TOWNSEND, FARIBORZ KHODABAKHSH, STEPHEN IDEM ..	159
Loss Coefficient Measurements in Divided-Flow Flat Oval Fittings (RP-690), BRAD TOWNSEND, FARIBORZ KHODABAKHSH, STEPHEN IDEM ..	151
Lubricant Return Comparison of Naphthenic and Polyol Ester Oils in R-134a Household Refrigeration Applications, JOSÉ L. REYES-GAVILÁN, G. THOMAS FLAK, TODD R. TRITCAK	180

M

Maintaining Temperature and Humidity in Non-Humidity-Generating Spaces, NAMIR F. SAMAN, HENRY W. JOHNSTONE.....	73
Measured vs. Calculated Head Loss for a Typical Centrifugal Pump Installation, ROY C.E. AHLGREN	445
Measuring Retrofit Energy Savings Using Autoassociative Neural Networks, KYUNG-JIN JANG, ERIC B. BARTLETT, RON M. NELSON	412
Mechanical Dehumidification Control Strategies and Psychrometrics, REINHOLD KITTLER.....	613
Model Energy Installation Program: Progress and Lessons Learned, The, ALAN T. CHALIFOUX, BOBBY L. LYNN, ALBERT R. MCNAMEE, JR., BRIAN M. DEAL	716
Modeled and Measured Effects of Compressor Downsizing in an Existing Air Conditioner/Heat Pump in the Cooling Mode, WILLIAM P. LEVINS, C. KEITH RICE, VAN D. BAXTER.....	22
Modeling the Influence of Building and HVAC System Parameters on Radon Levels in a Large Building, LIXING GU, MUTHUSAMY V. SWAMI, MICHAEL T. ANELLO.....	641

- Monitoring Savings in Energy Savings Performance Contracts Using Energy Management and Control Systems, KRISTIN E. HEINEMEIER, HASHEM AKBARI, JOHN S. (STEVE) KROMER. 562

N

- New Scroll Profiles Based on an Algebraic Spiral and Their Application to Small-Capacity Refrigeration Compressors, HIROKATSU KOHSOKABE, MASAHIRO TAKEBAYASHI, YOSHIFUMI KUNUGI, YASUHIRO OHSHIMA, HIROAKI HATA. 34
- Numerical Modeling of Thermal Behavior of Fluid Conduit Flow with Transport Delay, TIN-TAI CHOW, FRED IP, ALAN DUNN, WAI LEUNG TSE 45

O

- Optimal Control of Duct Pressure in HVAC Systems, HANCHU LI, CHIDAMBAR GANESH, DAVID R. MUNOZ 170
- Outdoor Air Delivery Rates to Occupants and Age of Air, ZHENHAI LI, JIANSHUN S. ZHANG, LESLIE L. CHRISTIANSON, RUSSELL N. KULP, LESLIE E. SPARKS. 313
- Overview of a Project to Determine the Surface Temperatures of Insulated Glazing Units: Thermographic Measurement and Two-Dimensional Simulation, HARRY F. SULLIVAN, JOHN L. WRIGHT, ROYDON A. FRASER. 516

P

- Practical Considerations in Monitoring Building Energy Use, MICHAEL D. MCDIARMID 576
- Principles of Refrigerant Circuiting with Application to Microchannel Condensers: Part I—Problem Formulation and the Effects of Port Diameter and Port Shape, MATTHEW K. HEUN, WILLIAM E. DUNN 373
- Principles of Refrigerant Circuiting with Application to Microchannel Condensers: Part II—The Pressure-Drop Effect and the Cross-Flow Heat Exchanger Effect, MATTHEW K. HEUN, WILLIAM E. DUNN. 382

R

- Reduction in Air Emissions Attainable Through Implementation of District Heating and Cooling, R. GORDON BLOOMQUIST. 461
- Room Air and Contaminant Distribution in Mixing Ventilation, PER HEISELBERG. 332

S

- Scale Modeling of the Pressure Drop in a Stairshaft, YEW-WAH WONG, WENG-KONG CHAN. 236
- Sensitivity of Fenestration Solar Gain to Source Spectrum and Angle of Incidence, W. ROSS MCCLUNEY. 112
- Simplified Relationships for the Enhancement and Compressibility Factors of Moist Air, ALBERTO CAROTENUTO, MARCO DELL'ISOLA 242
- Simulation Model of Electrically Heated Residences Validated with Field Data, A. C. WILLIAM SAVERY, JAMES B. LEE 3
- Six Steps to Follow That Ensure Proper Humidification System Design and Control, CHRIS B. MORTON 618
- Smart Energy Option: Reusing Wastewater for Cooling Energy, ANDREW CLAPHAM, JOEL JACKMAN, MARY M. LUNDT 472
- Spray Evaporation Heat Transfer Performance of R-123 in Tube Bundles (RP-668), SHANE A. MOEYKENS, JOHN E. KELLY, MICHAEL B. PATE 259
- Study of Freezing-Point Depression of Selected Food Extracts, FUMIHIKO TANAKA, SATOSHI MURATA, KAZUHIRO HABARA, K.S.P. AMARATUNGA 175
- Study of Insulated Glazing Unit Surface Temperature Profiles Using Two-Dimensional Computer Simulation, A. PEDRO F. DE ABREU, ROYDON A. FRASER, HARRY F. SULLIVAN, JOHN L. WRIGHT 497
- Study of the Stability of Supercooled Water in an Ice Generator, SHINICHI WAKAMOTO, KAZUSHIGE NAKAO, NAOKI TANAKA, HIROSHI KIMURA. 142
- Surface Temperature Measurement of Insulating Glass Units Using Infrared Thermography, HAKIM ELMAHDY. 489
- Surface Temperatures of Insulated Glazing Units: Infrared Thermography Laboratory Measurements, BRENT T. GRIFFITH, DANIEL TÜRLE, DARIUSH K. ARASTEH. . 479
- Survey of Design Considerations for Ventilating and Air-Conditioning Systems in Hong Kong, WAN K. CHOW, WING Y. FUNG. 210

T

- Theoretical Model for Predicting Adiabatic Capillary Tube Performance with Alternative Refrigerants, A (RP-762), ROBERT R. BITTLE, MICHAEL B. PATE. 52
- Thermal Interference of Adjacent Legs in a Vertical U-Tube Heat Exchanger for a Ground-Coupled Heat Pump, NORMAN K. MURAYA, DENNIS L. O'NEAL, WARREN M. HEFFINGTON. 12

- Thermodynamic Optimization of Evaporators
with Zeotropic Refrigerant Mixtures, FRAN-
CO RAGAZZI, CURTIS O. PEDERSEN . . . 367

U

- Use of Centrifugal Pump Head in HVAC Water
Systems, The, JAMES B. RISHL . . . 449

V

- Variable Flow—The Quest for System Energy
Efficiency, DONALD M. EPPELHEIMER. . . 673
- Ventilation and Environmental Quality in Labora-
tory Animal Facilities, RONALDO G.
MAGHIRANG, GERALD L. RISKOWSKI,
LESLIE L. CHRISTIANSON . . . 186
